fpdf / READING NOTES

A clearer way to read.

Open a document. Find your place. Focus on what matters.

01 Start with the essentials

Page navigation, zoom, rotation and searchable page text.

A Rust desktop reader with a dedicated PDF render worker.

Read at your own pace

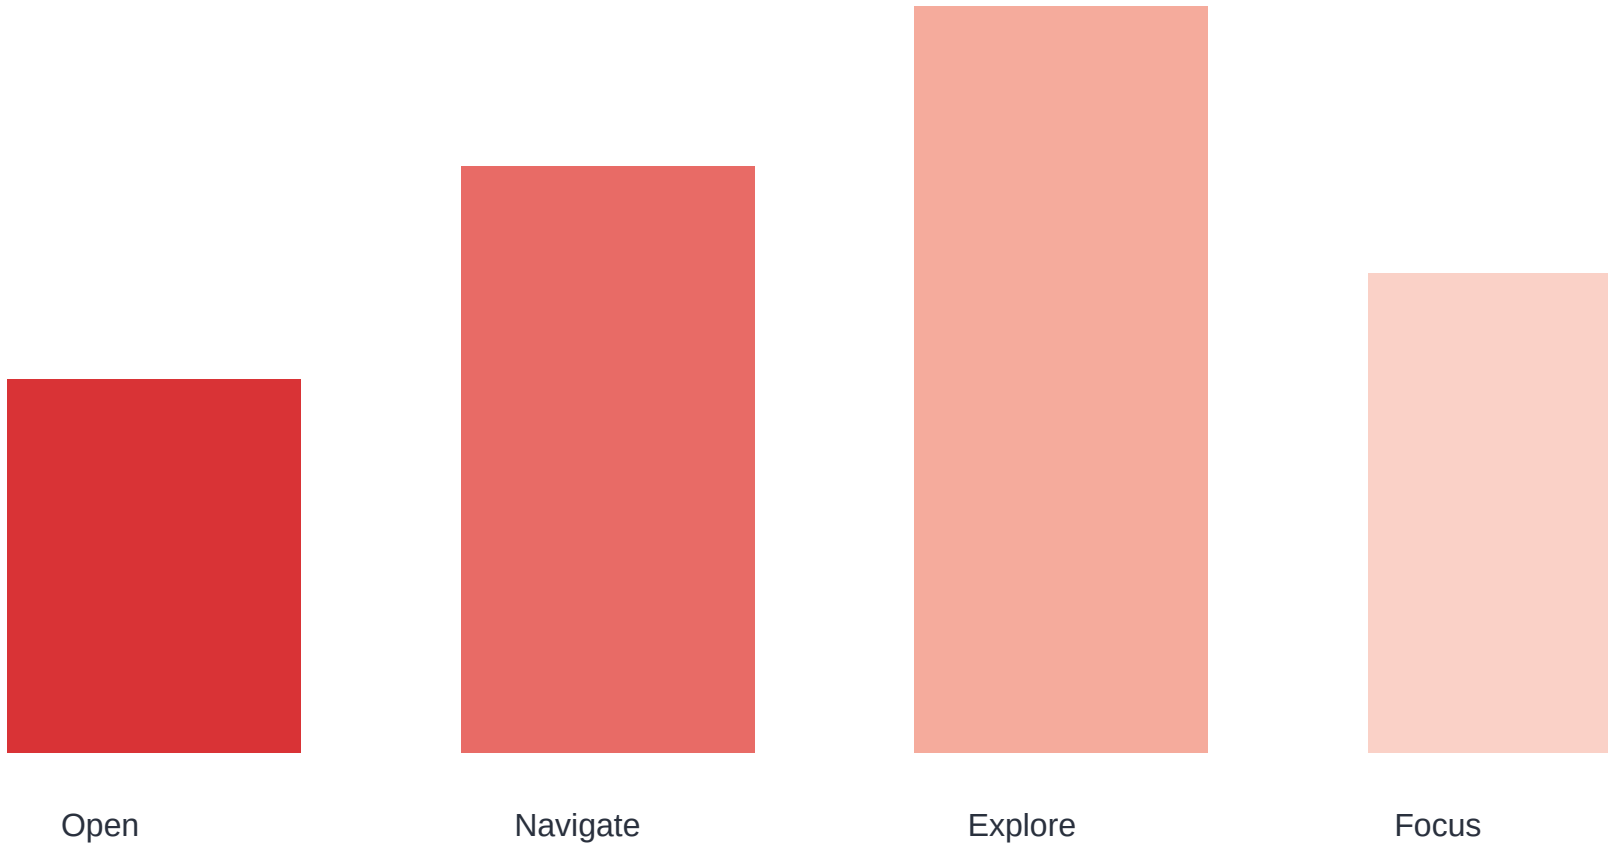
Use Page Down to continue to the landscape chart.

Use Ctrl+F to find the word essentials on this page.

Zoom in to inspect vector text and lines.

A different perspective.

Landscape pages keep their own aspect ratio.



Every page has a story.

This is the third and final page.

Try rotating this page, then return to fit width.

The text panel lets you select and copy extracted text.

Small tools. Clear purpose.

The application and sample document are independent implementations. No WPS runtime DLL is required.
